DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Frankfurt (5,941,034). Frankfurt discloses the use of residential housing unit (1) comprising two independent living units, common space wherein the common space connects the two independent living units and two property lots, see figures 1-4. In regards to claim 2, wherein the two independent living units are of different sizes. In regards to claim 3, wherein the common space further comprises a center wall. In regards to claim 4, wherein the common space is a breezeway (40). In regards to claim 7, wherein the two independent living units each contain a frontal access door.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Jenn (4,685,260). Jenn discloses the use of residential housing unit (20) comprising two independent living units, common space wherein the common space connects the two independent living units and two property lots, see figure 1. In regards to claim 2, wherein the two independent living units are of different sizes. In regards to claims 3&11, wherein the common space further comprises a center wall, see figure 1-3. In

regards to claims 4&10, wherein the common space is a private room. In regards to claim 5, the living units are deeded to two owners. In regards to claim 6, further comprising two garages (24a724d) each garage is attached to each independent living unit, see figure 2. In regards to claim 7, wherein the two independent living units each contain a frontal access door, figure 1. In regards to claim 8, the frontal access faces the same direction. In regards to claim 9, a housing unit comprising two structures for the purpose of providing a habitation by humans, wherein each of the two structures is connected to the other structure by a common space, the structures each containing a frontal access door, and two structures each built upon their own property lot. In regards to claim 12, the housing unit is built with the common space equally divided across a property line that divides the two property lots.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to further show the state of the art with respect to housing units: U.S Pat. No. 2893066, 3550334, 3955328, 4622787, 485094, US005845441A, US005394897A, and US006484454B1.
